Design Brief

(1) What is the purpose (goal) of the design?

The purpose of the design is to bring awareness and direct the attention of people in search for pastries that are from another country to this bakery in particular.

(2) Who is the audience?

With the low prices, the audience is meant to be as many people as possible from different social statuses, genders, ages, and even races. However, the Argentine name and colors may attract Argentinians more than the average American citizen unless they are curious.

(3) What message needs to be communicated?

We want to maintain the Argentine identity in the design but also make it accessible and welcoming for other ethnicities to try our food and pastries.

(4) What is the competition and marketplace?

1. <https://www.85cbakerycafe.com/>
2. <https://www.palacebakeryoc.com/>
3. <https://www.paderia.com/>
4. <https://www.frenchscupcakebakery.com/>
5. <https://www.lilybakery.net/>

(5) What is the context?

The store has a physical location so the logos and posters will be seen as people walk past the store.

(6) In what voice?

1. Sharing our sweet Argentine roots with the rest of the world!
2. Sweet, Tasty, Together, Cultural, Friendly

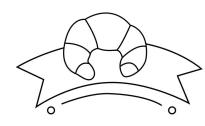

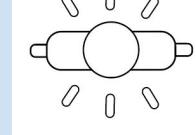

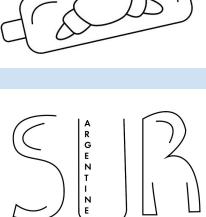

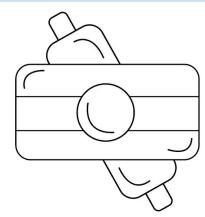

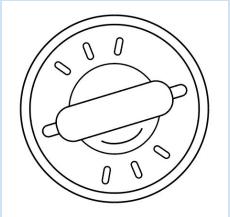

(7) What kind of response is desired?

We want the public to come into the store so they can purchase a pastry, coffee, food, or even talk to the owners of the bakery, an Argentine couple.
